

**Product Name:** New Look

**Revision Date:** 5/21/2015

## Safety Data Sheet

<b>SECTION 1</b>	<b>MATERIAL AND MANUFACTURER IDENTIFICATION</b>
------------------	---

Product Identifier: New Look "enhanced"

Product Use: Grout and tile cleaning

### MANUFACTURER

CTI (Chemical Technologies International Inc.)

PO BOX 968

Rancho Cordova, CA 95741

Phone: (916) 638-1315 Fax: (916) 638-0712

Emergency Assistance Calls: Chemtrec (800) 424-9300 (U.S.A.) 24hrs.

<b>SECTION 2</b>	<b>HAZARD IDENTIFICATION</b>
------------------	------------------------------

### GHS CLASSIFICATION

**Acute Toxicity, Oral (Category 4)**

**Skin Corrosion/Skin Irritation (Category 1C)**

**Acute Toxicity, Inhalation (Category 5)**

**Routes of Exposure:** Eye contact, skin contact, inhalation, and ingestion.

**Inhalation:** Excessive inhalation may cause irritation of the respiratory tract.

**Eye Contact:** Direct eye contact is highly irritating.

**Skin Contact:** Direct exposure may cause skin irritation, redness, pain.

**Ingestion:** Very small quantity is unlikely to cause injury. Larger quantity may cause injury; if swallowed causes Gastrointestinal irritation.

**Carcinogenic Potential:** Not established

**Acute Effects:** This product is considered to be a potential irritant. This product should not be used for any other purpose than the intended use established in section 1 of this safety data sheet.

**Chronic effects:** Not established.

Health hazard	2
Flammability hazard	0
Reactivity hazard	1
Other hazard	

Signal word: **WARNING**

Hazard statement(s): **H303: May be harmful if swallowed;**  
**H314: Causes severe skin burns and eye damage**  
**H335: Maybe harmful if inhaled.**

<b>SECTION 3</b>	<b>COMPOSITION/INFORMATION ON INGREDIENTS</b>
------------------	---

COMPONENT	CAS #	CONCENTRATIONS
1. Citric Acid	77-92-9	10-20%
2. Surfactant Blend	Not Established	1-15%

<b>SECTION 4</b>	<b>FIRST AID MEASURES</b>
------------------	---------------------------

**Inhalation:** Remove to fresh air. If breathing is difficult, get medical attention, have trained person administer oxygen.

**Eye Contact:** Flush eyes with a direct stream of water for at least 15 minutes, holding eyelids apart to ensure complete irrigation lid tissue. Washing eyes within several seconds is essential to achieve maximum effectiveness. Get medical attention.

**Skin Contact:** Flush thoroughly with cool water while removing any contaminated clothing and shoes. Wash clothing before reuse. Get medical attention if irritation persists after washing.

**Ingestion:** Call a doctor immediately.

<b>SECTION 5</b>	<b>FIRE FIGHTING MEASURES</b>
------------------	-------------------------------

**FLAMMABILITY PROPERTIES**

Flashpoint: Non-flammable nor combustible

Flammable Limits: Not Available

Auto Ignition Temperature: Not Available

**FIREFIGHTING PROCEDURES**

*General Hazard:* Smoke may contain original material, in addition to toxic and/or irritating compounds. Avoid heat or open flames

*Firefighting Instructions:* Evacuate all unnecessary personnel. Use dry chemical, CO<sub>2</sub>, water, foam or appropriate extinguishing media for fires where water is not appropriate. No special firefighting instructions.

*Firefighting Equipment:* Firefighters should wear NIOSH/MSHA approved self-contained, positive pressure breathing apparatus and full protective clothing.

*Hazardous Combustion Products:* Combustion may release oxides of carbon and sulfur.

*Unusual Fire and Explosion Hazards:* This material will not burn until the water has evaporated.

Residue can burn. Under fire conditions some components of this product may decompose. The smoke may contain unidentified toxic and/or irritating compounds.

<b>SECTION 6</b>	<b>ACCIDENTAL RELEASE MEASURES</b>
------------------	------------------------------------

**PERSONAL PRECAUTIONS**

Persons performing the clean-up should wear personal protective equipment sufficient to keep material away from skin. Avoid direct contact with material. See section 4 for First-Aid Advice. See section 5 for Firefighting Advice.

**PROTECTIVE MEASURES**

To minimize exposure to all chemicals, including this product, use good industrial hygiene and common sense. Use only in well ventilated area. If necessary, use exhaust ventilation to insure adequate ventilation. Insure that water is readily available and that you are prepared to properly wash out your eyes should the need arise. (See section 4 for more advice). Wear NIOSH/MSHA approved organic respirator when ventilation is not adequate or when the sufficiency of ventilation to maintain concentrations below

Product Name: New Look

exposure limits is in question. Wear chemical safety goggles to protect against splashes or contact with eyes. See OSHA 29 CFR 1910.33

### CLEAN-UP PROCEDURES

*Small Spills:* Sweep up to dispose of spill in DOT approved waste container.

*Large Spills:* Sweep up or Scoop up and dispose into DOT approved waste container. If possible complete clean up on a dry basis. Comply with all applicable governmental regulations on spill reporting, handling and disposal of waste. Contain all spills or leaks to prevent discharge into the environment. Responsibility of all spills or releases reported to the appropriate local, state and federal agencies falls upon the user.

<b>SECTION 7</b>	<b>PRECAUTIONS FOR SAFE HANDLING AND STORAGE</b>
------------------	--

### HANDLING

This product is professional strength product to be used by professionals only. Avoid breathing vapors/mist of this product. Always keep container tightly closed and properly labels. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling. Impervious boots/shoes covering should be used if material is anticipated to contact feet. As with all chemicals, practice good industrial hygiene when handling this product. In other words, always work in a well-ventilated area and avoid inhalation of product dust do not ingest or have contact with your eyes or skin.

The manufacturer and seller warrant that this product conforms to its standard specifications when used according to directions. As the conditions of method of its use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for use of this product. Information contained herein is believed to be true but all statements and suggestions are made without any warranty, expressed or implied, regarding accuracy of the information. The hazards connected with the use of this material and the results to be obtained from the use thereof.

### STORAGE

Avoid excessive heat. Avoid storage with oxidizing or reducing agents and acids. Employees should be trained to handle this product safely. Store the product in a cool dry area away from ignition sources. Loosen closures cautiously. Product may become a solid at temperatures below 0°C (32°F).

*Storage temperature:* Store in cool dry place

*Storage pressure:* Atmospheric

<b>SECTION 8 – EXPOSURE / PERSONAL PROTECTION</b>
---

### EXPOSURE LIMITS

Exposure limits have not been established for this mixture. Avoid, as far as reasonably practicable, inhalation of vapor, mists or fumes generated. Limits for components are listed below:

COMPONENT #	OSHA PEL	ACGIH TLV	NIOSH
	TWA STEL	TWA STEL	TWA STEL
1.Citric Acid	None Established	None Established	None Established
2. Surfactant	None Established	None Established	None Established

### ENGINEERING CONTROLS

The level of protection and types of control will vary depending upon potential exposure conditions. If user operations generate dust, fume or mist, use adequate ventilation to keep exposure below exposure limit.

### PERSONAL PROTECTION

*Ventilation and engineering controls:* Use only in well ventilated area. If necessary, use exhaust ventilation to insure adequate ventilation. Insure that water is readily available and that you are prepared to properly wash out your eyes should the need arise. (Refer to section 4).

Product Name: New Look

*Respiratory:* Wear NIOSH/MSHA approved respirator when ventilation is not adequate. A NIOSH /MSHA –approved air purifying respirator with an organic vapor cartridge or canister may be advisable under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure, air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstances where air-purifying respirators may not provide adequate protection.

*Eye Protection:* Wear safety goggles to protect against eye contact. See OSHA 29 CFR 1910.33

*Skin:* Wear chemical impervious gloves. Gloves must be inspected before use. Dispose of gloves after use in accordance with applicable laws and good laboratory practices. Wear protective clothing to minimize skin contact. Wash skin after use. Wash contaminated clothing and dry before reuse.

<b>SECTION 9</b>	<b>Physical and Chemical properties</b>
------------------	---

*Physical State and Appearance:* Liquid

*Odor:* light Odor

*Boiling point:* 100 C

*Melting point:* Not Available

*Flammability:* Non-flammable

*Flash point:* Non-flammable

*Flammability (solid, gas):* Not available

*Vapor pressure:* Not Available

*Color:* Clear

*pH:* 2

*Freezing point:* Not Available

*Solubility in water:* soluble

*Viscosity:* Not Available

*Relative density:* Not Available

*Particle Size:* Not Available

<b>SECTION 10</b>	<b>Stability and Reactivity</b>
-------------------	---------------------------------

*Chemical Stability:* Stable under ambient temperature and atmospheric pressure. Stable under recommended storage and handling conditions.

*Conditions to avoid:* Keep away from heat or excessive pressure. Active ingredient decomposes at elevated temperatures.

*Incompatibility with other materials:* Although the mixture has no known incompatibilities, some components of this mixture are not compatible with acids, metals, oxidizing or reducing materials.

*Hazardous decomposition products:* Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include and are not limited to: Sulfur oxides and Carbon oxides.

*Hazardous polymerization:* Major components of this mixture show no hazardous polymerization.

*Conditions to Avoid:* Strong Acids, Lead, Tin/Tin Oxides, Zinc and Aluminum.

<b>Section 11</b>	<b>Toxicological Information</b>
-------------------	----------------------------------

Toxicological information has not been established on this mixture. Toxicological information on components within this mixture is given by:

<b>COMPONENT #</b>	<b>TOXICITY</b>
1. Citric Acid	<b>LD50/LC50:</b> CAS# 77-92-9; rabbit, eye: 750 ug/24H Severe; rabbit, skin: 500 mg/24H Mild; <b>Oral LD50:</b> LD50 - Mouse = 5040 mg/kg; Oral, rat: LD50 = 3 gm/kg; . Carcinogenicity: CAS# 77-92-9: Not Established
2. Surfactant	

Product Name: New Look

<b>Section 12</b>	<b>Ecological Information</b>
-------------------	-------------------------------

Ecological information has not been established on this mixture. Ecological information on components within this mixture is given by:

COMPONENT #	TOXICITY
1. Citric Acid	Not Established
2. Surfactant	Not Established

<b>Section 13</b>	<b>Disposal practices</b>
-------------------	---------------------------

Dispose of all waste, empty bottles and contaminated equipment in accordance with all applicable federal, state and local health and environmental regulations.

Do not dump into storm drains or any body of water. All disposal methods must be in compliance with all federal, State/ Province and local laws and regulations. Regulations may vary in different locations.

Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. The vendor has no control over the management practices or the processes by which the party who handles or uses this material. The information presented here pertains only to the product as shipped in its intended condition and recommended usage.

<b>Section 14</b>	<b>Transport information</b>
-------------------	------------------------------

**DOT (US):**

These shipments are ORM-D and exempt from Bill of Lading requirements when sent via ground under 1 Liter when packaged for retail sale per 49 CFR 173.154. If product exceeds 1 Liter then will comply with the following:

UN Number: 1760

Proper Shipping Name: Corrosive liquid N.O.S. (Contains Citric Acid)

Hazard Class: 8

Labels: Corrosive Liquid

Packaging Group: III

**IMDG:**

Basic Description: UN 1760, Corrosive liquid N.O.S. (Contains Citric Acid), 8, III, LTD QTY

Marine Pollutant: No

\*Shipping Instructions as shipped are: ORMD/LTD QTY Exemptions Used 173.154 LTD QTY & ORM-D Consult 49 CFR to assure compliance with all applicable federal, state/provincial and local laws and regulations that may apply to you.

<b>Section 15</b>	<b>Regulatory Information</b>
-------------------	-------------------------------

US Federal Regulations:

OSHA standards require that information be provided to employees regarding the hazards of chemicals by means of a hazard communication program including labeling, safety data sheet (SDS) sheets, training and access to written records. We request that you, as per your legal duty to, make all information in this SDS available to your employees and those who handle or consume the product to aid our customers in complying with regulatory requirements regulatory information for components of this product are indicated below

Product Name: New Look

**COMPONENT**

1. Critic Acid

**REGULATION**

**OSHA Hazards:** Corrosive Liquid

**SARA Section 302** Extremely Hazardous Substances None of the chemicals in this product have a TPQ.

**SARA Codes** CAS # 77-92-9: immediate. Section 313 No chemicals are reportable under Section 313.

**Not Established**

2. Surfactant Blend

Section 16	Other Information
------------	-------------------

While the information is believed to be accurate, CTI makes no representations as to its accuracy or sufficiency. This SDS summarizes to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. All information appearing herein is based upon data obtained from the manufacturer and/or recognized technical sources of each individual component. Since CTI cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material. Users are responsible to verify this data under their own operating conditions to determine whether this product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product, or from the publication or use of, or reliance on information contained herein. This information relates only to the product-designated herein, and does not relate to its use in combination with any other material or in any other process.
