

RESTORE

DESCRIPTION:

Brown, dingy carpet and fabric could be from any number of causes. Whether it's hard water staining caused by well water, or residual detergent from a previous cleaning that's picked up dust and dirt, browning of carpets and rugs can make a room look like it hasn't been cleaned in a long time. Restore will tackle these debrowning issues with its unique formula that combines the rust and metal stain removing powers of vinegar with the ability to remove old detergents and surfactants left on carpet fibers.

DIRECTIONS:

For spotting: Dilute 1:4 (32 oz. per gallon). Use a damp sponge to apply small amounts of diluted solution directly onto the browned spot or area to be cleaned. Let sit for at least one minute before blotting with a clean rag. Do not rinse or extract afterwards.

PACKAGING OPTIONS:

- 12/pts.
- 4/1 gal.

SPECIFICATIONS:

Appearance: Clear, colorless liquid

Odor: Acetic

pH: 2.1

Storage: Store at room temperature away from direct sunlight.

Freeze/Thaw: Will recover
