

WASTE TANK TREATMENT

ENZYME TANK DEODORIZER VALVE & SEAL LUBRICANT DRAIN CLEANER

DESCRIPTION

THE ANSWER TO STINKY WASTE TANKS & DRAINS CLOGGED WITH ORGANIC MATTER!

Waste Tank Treatment is a highly concentrated solution of enzymes and bacteria that resolves offensive odors and organic soil build-up in waste tanks and drains. It emits the source of the odor by breaking down and consuming organic matter such as urine, fecal matter, vomit, rotting food, and more. The only scent it leaves behind is a pleasant fresh rain fragrance. It is a bleach and solvent free formula that is safe for all valves, seals, drains, and waste tanks (including all metals and plastics).

ALL NATURAL, NON-TOXIC, AND SAFE FOR ALL ENVIRONMENTS

DIRECTIONS FOR USE

Waste Tanks:

Add directly to your waste tank

Truckmounts: 5 oz | Portable: 1 oz | Floor Scrubber: 1 oz

For best results, add at beginning of the day and allow to sit overnight before discharging the next morning.

Drains and Garbage/Septic Disposal: Add 5 oz down drain to clear organic matter.
