

30+ YEARS OF PROFESSIONAL ODOR MANAGEMENT

Complete Odor Elimination for Severe Cat Build-Up

Eliminates serious odors originating from pet/human urine, feces and decaying organic matter. These materials can be extremely offensive and difficult to eliminate. Odorcide® Cat Attack works through a process of counteraction and absorption to safely and effectively eliminate the malodor.

USES

Eliminates odors in carpets, upholstery and other porous surfaces from urine, tomcat spray, feces, emesis and more. Contains no enzymes so may be used without loss of efficacy with or after detergents (carpet shampoo) and germicides have been used. Removes many stains.

CONCENTRATES

- 128 oz. (3.79L)
- 16 oz. (474ml)

CAUTIONS

Effectiveness decreased when using with chlorine solutions. Always spot test for color fastness.

Category 1B. H317: May cause allergic skin reaction.

DIRECTIONS FOR USE

ONE-TIME ODOR ELIMINATION

For carpet, locate the source of the odor (a black light or moisture probe may help identify urine deposits) and treat after vacuuming loose dirt and debris. Mix concentrates with water at a rate of 1:16 (8 oz. per gallon) and saturate 50% beyond the actual spot area.

For general carpet deodorizing, add Cat Attack directly to the cleaning system insuring it penetrates to the odor source. Increase penetration by using a roller, hand manipulation or by walking the product in. Extract excess when cleaning or let air dry.

ONGOING ODOR ELIMINATION

Dilute with water or cleaning solution at a rate of ½ oz. per gallon. Apply to litter box areas or cages with mop, sponge, or trigger sprayer. Use higher dilution for more severe odor situations.

PRODUCT SAFETY

All Odorcide® by Thornell products are safe for use on any surface or directly on the animal. As with any pet care product, consult with your veterinarian and review and follow the label directions. Contains water, proprietary essential oil blend and preservatives.

Keep out of the reach of children. For external use only.
