

Complete Odor Elimination for High-Use Laundry

Laundry odors require consistent, effective control. Odorcide® by Thornell products permanently eliminate malodors through multi-mechanism formulations including counteraction, absorption, molecular bonding, inhibitors, and residual action. Each product is engineered for a specific application.

USES

Laundry odors can develop from sports, smoke, work, pets, and other musty sources. Use Odorcide® Laundry to eliminate odors from heavily contaminated items and support consistent results across regular wash cycles. Apply as a presoak for targeted treatment or add to each load for ongoing odor control.

CAUTIONS

Effectiveness decreased when using with chlorine solutions. Always spot test for color fastness.

DIRECTIONS FOR USE

PRE-TREATMENT

Pre-treat heavily contaminated items by simply adding ½ oz. to water and soak prior to washing. When washing pre-treated items, simply follow the directions below.

STANDARD WASH CYCLE

For optimal performance, add Odorcide Laundry every time you wash at the following rates.

- Light odor loads: Add ¼ oz.
- Moderate odor loads: Add ½ oz.
- Extreme odor loads: Add 1 oz.

Odorcide Laundry can be added directly with the detergent or during the auto-soak cycle. Odorcide Laundry is an additive, not a detergent, and is safe for use with detergents, fabric softeners and other laundry additives.

PRODUCT SAFETY

All Odorcide® by Thornell products are safe for use on any surface. As with any product, follow the label directions. Contains water, proprietary essential oil blend and preservatives.

Keep out of the reach of children. For external use only.
