

Complete Odor Elimination for Organic Stains and Odors

USES

Ox-Erase™ Stain and Odor Remover combines Odorcide's proprietary odor elimination technology with oxidizers to remove organic stains and odors from urine, blood, coffee, feces, vomit, and more. It works with little to no dwell time across carpet, upholstery, concrete, hardwood, and tile.

PRODUCT SAFETY

Always spot test for color fastness. Safe for use on carpets, upholstery and rugs. Do not use on silk or wool. Skin, nose and eye protective gear recommended. As with any product, follow the label directions. Contains water, proprietary essential oil blend and oxidizing agents. Keep out of the reach of children. For external use only. For more information, please review the safety data sheet at odorcide.com.

CAUTIONS

Causes skin irritation. Causes serious eye damage. May cause an allergic skin reaction.

Wash hands thoroughly after handling. Wear protective gloves, eye protection and face protection. Avoid breathing fumes, gas, mist, vapors or spray. Contaminated work clothing should not be allowed out of the workplace. Dispose of container and contents in accordance with appropriate regulations.

Organic stains and odors require consistent, effective control. Ox-Erase™ Stain and Odor Remover combines Odorcide® by Thornell technology with oxidizers to remove stains and eliminate malodors through counteraction, absorption, molecular bonding, inhibitors, and residual action.

COUNTERACTION

Termed neutralization when no odor results and reodorization when a milder pleasant odor replaces the malodor.

ABSORPTION

The physical penetration of the malodor substance into the inner structure of one or more of the Thornell's product substances.

BONDING (CHEMISORPTION)

Chemical binding of malodors to molecular surfaces.

OXIDIZERS

Eliminates organic stains on all types of surfaces including carpet, upholstery, concrete, hard wood floors and tile.

DIRECTIONS FOR USE

Thoroughly saturate to reach the odor source, completely covering the stain. Lightly agitate to assist with stain removal. Excess product can be removed during normal cleaning. Air dry.

For light stains and odor, dilute 2:1. Apply in the same manner. Air dry.

IF ON SKIN Wash with plenty of water and soap. See First Aid section on the SDS). Take off contaminated clothing and wash before reuse. If skin irritation or a rash occurs: Get medical advice/attention.

IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a Poison Center or doctor/physician.
